YearsInCurrentRole by YearsSinceLastPromotion colored by Attrition

Attrition

- ☒ No
- ☐ Yes

This scatter plot shows the relationship between years in current role (x-axis, 0 to 15) and years since last promotion (y-axis, 0 to 15). Points are colored by attrition status: blue for 'No' and red for 'Yes'. Most points are blue, indicating no attrition, and are clustered at lower values for both axes.
